

I want to register my deep dismay at the FCC's allowing of Sinclair Broadcasting to have their stations air a negative program about Jogn Kerry just days before the election with the obvious intent to harm one candidate's chances of winning.

Becuse Sinclair uses the public airwaves free of charge, it must give equal time to an opposing view point. I agree strongly with who argue that this type of manipulation is the direct result of unfettered media ownership consolidation, and I implote you to take action.

Thank you.
